# GIOR- NATE

TAGE DER AGRARÖKOLOGIE  
GIORNATE DELL'AGROECOLOGIA  
JOURNÉES DE L'AGROÉCOLOGIE

# DELL'

## GIORNATE DELL'AGROECOLOGIA

Il modo in cui attualmente produciamo e consumiamo il cibo sta danneggiando noi e il pianeta. Le Giornate dell'Agroecologia dimostrano che esiste un'altra strada: insieme rendiamo visibili e celebriamo l'agroecologia e le sue numerose soluzioni per un'agricoltura e un'alimentazione più sostenibili. Per tutto il mese di ottobre, diverse organizzazioni presenteranno in tutta la Svizzera le loro visioni e i loro progetti di agroecologia. Venite e contribuite a plasmare il futuro: [#Agroecologyworks!](#)

# AGRO-

# ECOLOGIA

## L'AGROECOLOGIA

Agroecologia è un termine collettivo per molte iniziative che concordano su una cosa: Per nutrire la popolazione mondiale oggi e in futuro, nel rispetto delle persone, degli animali e della natura, sono necessari cambiamenti profondi. Gli alimenti dovrebbero essere coltivati in modo più sostenibile, ad esempio rinunciando ai pesticidi o promuovendo la biodiversità. Ma l'agroecologia non si limita all'agricoltura: si cercano cambiamenti dalla produzione fino al consumo di cibo - dal campo alla tavola. Un aspetto centrale è la richiesta di sovranità alimentare: tutti, e soprattutto coloro che lavorano nel settore agricolo, dovrebbero essere in grado di definire la politica agricola e alimentare in modo autodeterminato. Per raggiungere questo obiettivo, i rappresentanti dell'agricoltura, della ricerca e della popolazione si stanno unendo per formare un colorato movimento sociale.

Una spiegazione completa dell'agroecologia è disponibile sul nostro sito web.

## AGROECOLOGYWORKS

Un numero importante e in rapida crescita di organizzazioni e iniziative è convinto dell'agroecologia. La rete « Agroecology works! » è stata creata per riunire i diversi attori in Svizzera per la causa comune. [www.agroecologyworks.ch](http://www.agroecologyworks.ch)
